

Ideation Phase
Define the Problem Statements

Date	6 JULY 2026
Team ID	SWTID-2026-5839
Project Name	Visualization of Housing Market Trends
Maximum Marks	2 Marks

Customer Problem Statement Template:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Real Estate Market Analyst	Analyse housing price trends across different cities and years to identify market patterns.	The dataset contains large volumes of records, making analysis slow and difficult.	Traditional spreadsheets and reports do not provide interactive visual analysis	Overwhelmed by complex data and uncertain about making accurate market predictions.
PS-2	Property Investment Consultant	Compare housing prices, sales, and property features to recommend the best investment locations.	Static reports make it difficult to filter and compare multiple regions and time periods.	Existing reports lack dynamic dashboards and advanced filtering capabilities.	Frustrated by delayed insights and less confident while advising clients.
