

Ideation Phase

Empathize & Discover

Date	7 July 2026
Team ID	SWTID-2026-5839
Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

These features help home buyers, sellers, investors, and real estate agents make informed decisions, analyse housing market trends, compare property prices, and identify valuable property features.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user perspective along with his or her goals and challenges.
